

MFL by Masson Torant LED White Floodlight with Sensor in Warm White

DESCRIPTION

MFL by Masson Torant floodlight with integrated LED , is IP65 rated, suitable for outside conditions. This light has an aluminium body and a copper swivel arm. The fitting has a PIR sensing device which continuously scans the operating zone and immediately switches the light on when it detects movement in that area. Whenever movement is detected within the range of the sensor, the light will switch on automatically to illuminate the area. While there is movement within the sensor range, the light will remain on. The ideal mounting height for the fitting is between 1.5m to 2.5m above the detection area. The detection area is approximately 10 metres away at an angle of 120° wide. The detection area vary depending on the mounting height and location.
