

Diamond 1 Light Exterior Wall Bracket in Galvanised Steel

DESCRIPTION

The Diamond 1 light exterior wall bracket is IP44 rated and is available in finishes of galvanized steel or black. With its industrial character, the Diamond 1 light exterior wall bracket stands out as a durable outdoor light. The domed half-moon shape offers a strong span of light downwards and can be strategically placed above large potted plants, beside a front door or to light up the foliage beneath. This fitting being IP44 means it can be installed outdoors but does need to be installed in a place where it is not exposed to full weather
