

LEDlux Handy 300mm Light Bar With Sensor

\$49.95

DESCRIPTION

The LEDlux Handy is for Indoor Use only. Use the 'On/Off' switch to turn the fitting on/off or to the motion sensing mode as below. Long press the On/Off switch for 3 seconds then the light will be permanently on. Short press the On/Off switch once again then the light will enter the motion sensing mode (Indicator will flash once in green) When in Motion sensing mode - The light will be turned on automatically when any motion is detected. It will be turned off after 20 seconds if no motion is detected. Short press the On/Off switch again then the light will be permanently off. Charging Information: Plug the provided USB cable in the charging port and connect the USB cable to computer/laptop or power adaptor to charge the light. The charging indicator will be red under charging and will be green when fully charged.
