

Panasonic 24 Hour DC Exhaust Fan with Motion Sensor in White

\$399.00

DESCRIPTION

Improve your indoor air quality with Panasonic's FV-24 range of innovative ceiling-mounted exhaust fans. Thanks to their direct current (DC) motors, these exhaust fans provide whisper quiet operation and energy-efficient performance while using just 9.3W of power. [Click here](#) for Installation Instructions.

Other important features:

- 24-hour ventilation mode and built-in timers to prevent mould growth in spaces prone to constant dampness
- Intelligent technology automatically maintains constant air volume by sensing changes to air pressure
- Noise dampening double chamber design for quiet operation - even at higher speeds
- 3-year parts and labour warranty

Want more out of your exhaust fan? The FV-24JR3 model is equipped with an intelligent motion sensor that switches on automatically when you enter the room and switches off when you leave. To learn more, download the [Panasonic FV-24 brochure](#).
