---

Abyss is beautifully styled, with slim blades that seamlessly meet the flattened motor to provide your home with superior velocity airflow.

### DC Motor - Efficient, Cost Saving, and Quiet

The most energy-efficient ceiling fans on the market right now are DC or direct current, fans. The key to their improved airflow and low energy consumption is their motor, which also helps you save money on your electricity bill. Since the motor is small and light, DC ceiling fans have sleek designs that fit better in your interiors and cost just one cent an hour to run. Additionally, they are silent in operation, making them ideal for private spaces in your house like the bedroom. You have a lot of versatility with the speed settings of DC fans, which range from a light breeze to an extremely intense airflow.

### Remote Control

9-speed remote control with timer function and natural wind mode included.

### Alternative Canopy

Each fan includes an alternative canopy that does not have clips for a cleaner look and will allow for pitched ceiling installation up to 15 degrees. Please note that this canopy does not have the IP66 rating when installed.

### Coastal Rating

Suitable for indoor, alfresco, and coastal areas provided the fan is fully undercover, protected from water, wind, and dust, with a minimum of 1 wall.

### Ingress Protection Rating

Comes with an IP66 rating, ensuring excellent protection against dust and water for enhanced durability in challenging environments.

### Recommended Room Size

For rooms between 4m x 4m or greater, we recommend a fan between 142cm and above.

### 2-Year In-Home + 7-Year Motor Replacement Warranty

We provide a 2-year in-home warranty and a 7-year motor replacement warranty on all hard-wired Lucci or Fanaway fans. Plus, if you have your fan purchased or installed by a Beacon Lighting Trade member, we'll extend your in-home warranty on the nominated Lucci or Fanaway fan for an extra 1 year, which means you'll enjoy a 3-year in-home warranty.
