

Lucci Power 200W LED Electrical Rotary Dimmer in Black

\$81.95

DESCRIPTION

Upgrade your lighting control system with the versatile Lucci Power 200W LED Electrical Rotary Dimmer, a highly recommended choice for all Lucci dimmable products. Compatible with the 30 series mech switch plates, this dimmer switch is designed to retrofit to existing switch wall plates with ease.

It features a trailing edge dimmer that provides stable control of the light fittings on any specific circuit and can handle a maximum LED load of 200W.

The Lucci Power Rotary Dimmer has no minimum load requirement and can be set to a specific dimming percentage, with the ability to dim down to 0%. Suitable for LED drivers only, this dimmer also features CCT technology, which allows users to adjust the colour temperature of their lighting to create different moods or suit different activities. The switch also has a reset function and other useful features detailed in the instruction manual.

Seamlessly integrate the Lucci Power 200W LED Electrical Rotary Dimmer with the Lucci Power Quantum, Lucci Power Gravity and Vynco and ranges, which are part of the 30 series mech, to create a customized and cost-effective lighting system that meets your needs.
