

Atlas 1 Light Adjustable Wall Bracket in Bronze

\$249.00

DESCRIPTION

Atlas is a seemingly simple design, yet it has a range of subtle, hidden details that make it a staple for any home. The back plate of the wall bracket can be rotated, allowing it to be installed with the plate running parallel or perpendicular to the shade. The shade then has a hidden slit in the rear that purposefully allows light to leak, providing a gentle wash of light onto the wall. The top of the Atlas also features perforated metal detailing that adds an extra level of refinement. The minimalist Atlas range is available in textured black or bronze.
