

Strix III 1.8m Plate Shade Only in Bronze

\$229.00

DESCRIPTION

Strix III Decorative Shades Collection

Transform the sleek and minimalist Strix III 1.8m LED linear pendant with a stunning range of decorative shades, sold separately to offer ultimate customisation. These shades are designed to complement the pendant's clean lines while creating a distinctive look to suit various interior styles.

For a modern retro aesthetic, opt for curved shades in high-gloss piano black or white. To achieve a contemporary, metallic finish, the flat plated shades are available in aged brass, bronze, or brushed nickel—perfectly coordinating with tapware and kitchen hardware. For a more organic feel, the arched teak or walnut shades bring natural warmth, complete with an additional set of end caps for enhanced personalisation.

The Strix III pendant itself, sold separately, features advanced LED technology, including adjustable CCT for custom colour temperatures and dimming capabilities, making it ideal for any setting. Together, the pendant and shades provide a versatile mix-and-match solution for modern lighting design.

TIP: Combine metallic shades for a sleek, industrial vibe or choose timber for a warm, natural contrast that softens minimalist spaces.
