

Osbourne Day Night Sleep LED Floor Lamp in Aged Bronze

\$449.00

DESCRIPTION

The Osbourne Day Night Sleep floor lamp is a versatile and innovative lighting solution designed to enhance your well-being and support your natural sleep-wake cycle. With its classic shape and adjustable professional task lamp range, this floor lamp combines functionality with timeless style.

This lamp is available in two finishes: textured black and aged bronze. These metal finishes match the popular Smith range, allowing for seamless coordination in your interior design.

One of the standout features of this floor lamp is its Live Well functionality. Based on research from Monash University, the Live Well range is engineered to improve your health and well-being by aligning your lighting with your daily routine. By providing different colour temperatures and brightness levels at different times, this lamp optimises your health, productivity, mood, and sleep.

With a stepless dimming and a stylish touch button, the Osbourne Day Night Sleep floor lamp offers you complete control over the lighting intensity. Whether you need a bright cool white light to stimulate your mornings or warm white light to relax in the evenings, this lamp effortlessly adjusts to your desired setting.

The Live Well range also takes into consideration the negative effects of blue light at night. By reducing blue light at warm colour temperature levels, these lights promote the production of melatonin, the natural sleep hormone, allowing you to fall asleep easily and enjoy uninterrupted rest.

In addition to its sleep-friendly features, the Osbourne Day Night Sleep floor lamp is designed for optimal eye comfort. It reduces flicker, which can cause eye strain and headaches, and minimises glare, ensuring a pleasant and soothing lighting experience.

This lamp also features a high colour rendering index (CRI) of over 80 to accurately reveal the true colours of your surroundings, making your artworks, furnishings, and flooring look their best.

Controlling your lighting has never been easier. With the Osbourne Day Night Sleep Floor Lamp, you can effortlessly switch between lighting scenes to match the time of day and your specific tasks. Whether you prefer to use a standard wall dimmer or a smart dimmer, this lamp allows you to adjust the colour temperature according to your needs.

Rest assured with a 3-year warranty, providing you with peace of mind and confidence in your purchase.
