

Contour LED Colour-Shifting Rectangle Mirror in White

DESCRIPTION

Contour Mirror Collection

The Contour mirror collection redefines modern elegance with its sleek, minimalist design, featuring a clean white frame that complements any bathroom vanity. Available in four timeless shapes—round, oval, curved, and arch—this LED mirror range combines functionality with style. Its innovative 4-way CCT technology lets you choose between Cool White, Warm White, or Natural White during installation, or opt for the adaptable Colour Shift feature. With Colour Shift, you can effortlessly change the light colour and mood at any time via a simple flick of the wall switch.

Designed to deliver exceptional light quality, the Contour mirrors boast a high Colour Rendering Index (CRI), ensuring accurate colour representation that's essential for makeup application and grooming. The high CRI lighting replicates natural light, making it ideal for vanities where clarity and precision are key. While the mirror comes with a crisp white frame as standard, interchangeable covers in bronze, black, aged brass, and brushed chrome (sold separately) allow you to match the mirror seamlessly with your tapware and hardware. Crafted from durable metal and glass, the IP44-rated collection is suitable for wet areas and backed by a 3-year warranty for peace of mind.

TIP: Select the Colour Shift feature to transition seamlessly from bright Cool White light for morning routines to a soft Warm White glow, creating a relaxing, spa-like atmosphere in the evening.

SPECIFICATIONS

SKU	190832
Dimmable	Yes
IP Rating	44
