

Lanie 1 Light Wall Bracket in Brushed Chrome

\$119.00

DESCRIPTION

Lanie Wall Bracket Collection

The Lanie wall bracket collection brings timeless sophistication and minimalist design to any space. With a sleek single-arm design, these versatile wall lights are available in six stylish finishes: brass, bronze, chrome, brushed chrome, black, and white. For a touch of natural warmth, the collection also includes black and white options with teak wood accents, adding an organic element that beautifully complements contemporary interiors.

Ideal for bedside lighting, hallways, or as accents beside mirrors, the Lanie wall brackets are designed to blend seamlessly into any space. With their compact design and a range of finishes, they offer the flexibility to coordinate with your hardware and fixtures or to create a bold design statement. Please note, globes are sold separately, allowing you to customise the light output to your preference.

TIP: Choose a teak wood accent for a softer, organic feel, or opt for metallic finishes like brass or chrome to create a polished, modern aesthetic.
