

Lucci Karbon 25W BC Deco T8 Globe in Warm White

DESCRIPTION

The Karbon Decorative 25W T80 globe may be used in many new light fitting designs, like pendants which will acquire individuality with the addition of the Karbon Decorative T80 25W Globe. This globe will provide a warmer glow compared to the traditional incandescent or halogen GLS globes. Whilst you may not wish to light an entire room with this globe, they are perfect for creating an intimate pool of light over a particular area, such as an alfresco or dining table. This globe is not intended for general purpose illumination applications. It is designed to emit low light levels.
